

OUTDOOR

WarisanTM

Hospitality and residential furniture since 1989.

Our Outdoor models are manufactured using exclusively A grade Teak wood from the Indonesian government plantation. We have added to Teak wood other accent materials like stainless steel, aluminum, synthetic rattan and lately Batyline, a synthetic material produced in Italy which is rapidly becoming a protagonist in all Outdoor furniture.

For the upholstery we use on request Quick Dry Foam or the standard fire proof Cal 117. The customers favorite fabrics for outdoor is usually Sunbrella of which we have a large stock supply, but off course we can use other fabrics specified by our customers. The finishing for outdoor is usually Teak or Linseed oil, but on request we can apply other products requested by our customers.

You may have already seen our work, as we also supply custom made indoor furniture to architects and designers in both hospitality and residential projects worldwide. With these collections we hope to inspire you and your environment.

Please enjoy.

Sincerely,

A handwritten signature in black ink, reading "Gianpaolo Arzani". The signature is written in a cursive, flowing style.

MATERIALS: SLING FABRIC, TEAK WOOD FRAME

Sling Fabric from BATYLINE® is light and airy yet strong and durable for any climate. It is easy to maintain, providing a crisp, clean look. We've taken a quirky twist on the classic director's chair. The broken leg shape is inspired by the clean lines of modern architecture and the fun shaped chevron pattern. This chair is also stackable.

A sculptural experience!
The Lun-koon Daybed invites guests to “rest a spell”,
creating a private sense of place while still enjoying

Originally inspired by early modern furniture
designs that used metal tubular binding as its main
