

Our Outdoor models are manufactured using exclusively A grade Teak wood from the Indonesian government plantation. We have added to Teak wood other accent materials like stainless steel, aluminum, synthetic rattan and lately Batyline, a synthetic material produced in Italy which is rapidly becoming a protagonist in all Outdoor furniture.

For the upholstery we use on request Quick Dry Foam or the standard fire proof Cal 117. The customers favorite fabrics for outdoor is usually Sunbrella of which we have a large stock supply, but off course we can use other fabrics specified by our customers. The finishing for outdoor is usually Teak or Linseed oil, but on request we can apply other products requested by our customers.

You may have already seen our work, as we also supply custom made indoor furniture to architects and designers in both hospitality and residential projects worldwide. With these collections we hope to inspire you and your environment.

Please enjoy.

All the Best,

Gianpaolo, on behalf of Team Warisan
